

Bill of Materials for SAP BusinessObjects Enterprise

December 2017

This bill of materials is being attached for informational purposes only. It does not limit SAP's development of software enhancements to the SAP BusinessObjects Enterprise Package or new products which may at SAP's sole discretion be licensed separately for additional license fees and is not a commitment that such functionality, in its current form, will be in future versions or releases of the software. For all software licensed separately by SAP including but not limited to Optional Packages and Industry Specific Solutions, the parties agree to execute separate Appendices at mutually agreed upon pricing and terms.

2 SAP BusinessObjects Enterprise, Standard Edition

Description

The standard edition of the SAP® BusinessObjects™ Enterprise solution includes all reporting functionality a customer requires. It includes the leading SAP Crystal Reports® software for high-fidelity production reporting and SAP BusinessObjects Web Intelligence® software for ad hoc reporting to benefit decision makers and analysts.

Key Capability

Customers gain the key capabilities of the following products:

- SAP BusinessObjects Business Intelligence platform, including mobile BI
- SAP Crystal Reports® software
- SAP BusinessObjects Web Intelligence

SAP BusinessObjects BI SDK - the use of any SAP BusinessObjects BI SDK in any commercial software product for the purposes of connecting data accessed via SAP BusinessObjects semantic layers or documents with third party products is prohibited without the written consent of SAP.

The use of any SAP BusinessObjects BI SDK in any commercial software product for the purposes of converting SAP BusinessObjects content or metadata to third party products is not allowed without the written consent of SAP.

3 SAP BusinessObjects Enterprise, Professional Edition

Description

The professional edition of SAP® BusinessObjects™ Enterprise solutions includes all the enterprise business intelligence (BI) and agile visualization functionality a customer requires. It includes solutions for reporting, dashboards and applications, and agile visualization to benefit decision makers, analysts, BI content designers, and administrators. It also includes restricted use runtime licenses of SAP IQ, SAP PowerDesigner, and SAP Data Integrator.

Key Capabilities

Customers gain the key capabilities of the following products:

- SAP BusinessObjects Business Intelligence platform, including mobile BI
- SAP Crystal Reports® software
- SAP Analysis for OLAP
- SAP Analysis for Microsoft Office
- SAP BusinessObjects Web Intelligence® software, including rich client
- SAP BusinessObjects Dashboards
- SAP BusinessObjects Design Studio
- SAP BusinessObjects Explorer®
- SAP Lumira, discovery edition
- SAP Lumira, designer edition
- SAP Lumira, server edition
- Access to administration tools

SAP BusinessObjects BI SDK - the use of any SAP BusinessObjects BI SDK in any commercial software product for the purposes of connecting data accessed via SAP BusinessObjects semantic layers or documents with third party products is prohibited without the written consent of SAP.

The use of any SAP BusinessObjects BI SDK in any commercial software product for the purposes of converting SAP BusinessObjects content or metadata to third party products is not allowed without the written consent of SAP.

SAP BusinessObjects Enterprise, professional edition include the following Runtime Software:

- SAP IQ which can be deployed on multiple instances, so long as total number of cores deployed across all instances does not exceed 8 cores
- Data Integrator (DI) which may be deployed on multiple instances, so long as total number of cores deployed across all instances does not exceed 8 Cores, and the DI instances are not clustered. Use of the Data Integrator runtime (i) does not include Text Data Processing and (ii) may only load data into one target datastore.
- one Concurrent Session license of SAP PowerDesigner EnterpriseArchitect.

4 SAP BusinessObjects Enterprise, Premium Edition

Description

The premium edition of SAP® BusinessObjects™ Enterprise solutions includes all the enterprise business intelligence (BI) and agile visualization functionality a customer requires. It includes solutions for reporting, dashboards and applications, and self service data discovery to benefit decision makers, analysts, BI content designers, and administrators. It also includes restricted use runtime licenses of SAP IQ, SAP Data Integrator, SAP PowerDesigner, SAP HANA VORA (for big data analytics) and SAP Predictive Analytics.

Key Capabilities

Customers gain the key capabilities of the following products:

- SAP BusinessObjects Business Intelligence platform, including mobile BI
- SAP Crystal Reports® software
- SAP Analysis for OLAP
- SAP Analysis for Microsoft Office
- SAP BusinessObjects Web Intelligence® software, including rich client
- SAP BusinessObjects Dashboards
- SAP BusinessObjects Design Studio
- SAP BusinessObjects Explorer®
- SAP Lumira, discovery edition
- SAP Lumira, designer edition
- SAP Lumira, server edition
- Access to administration tools

SAP BusinessObjects BI SDK - the use of any SAP BusinessObjects BI SDK in any commercial software product for the purposes of connecting data accessed via SAP BusinessObjects semantic layers or documents with third party products is prohibited without the written consent of SAP.

The use of any SAP BusinessObjects BI SDK in any commercial software product for the purposes of converting SAP BusinessObjects content or metadata to third party products is not allowed without the written consent of SAP.

SAP BusinessObjects Enterprise, premium include the following Runtime Software:

- SAP IQ which can be deployed on multiple instances, so long as total number of cores deployed across all instances does not exceed 8 cores,
- Data Integrator (DI) which may be deployed on multiple instances, so long as total number of cores deployed across all instances does not exceed 8 Cores, and the DI instances are not clustered. Use of the Data Integrator runtime (i) does not include Text Data Processing and (ii) may only load data into one target datastore.
- one Concurrent Session license of SAP PowerDesigner EnterpriseArchitect,
- one User of Predictive Analytics Modeler,
- SAP BusinessObjects Predictive Analytics Suite for deployment up to a maximum data size volume of 64 GB, and
- SAP HANA Vora for up to 4 nodes.
