

# SAP Analytics Cloud

## Supported data sources

With SAP Analytics Cloud you can connect to multiple organizational data sources. Create visualizations based on your connected data to answer your current business questions, plan, and predict your future. SAP Analytics Cloud supports a variety of cloud-based and on-premise data connections as well as .csv and .xls file uploads.

### Cloud-based:

- Concur
- Fieldglass
- Google Drive
- HCP – HANA Cloud Platform
- OData Services
